Suggestions:

- Scott Segal from Poland suggested that we have a separate meeting for the hosting locations to make sure that all teams/hosting teams are on the same page.
- Requirement for teams at all competitions. Please keep all facilities as clean and neat as they were prior to getting at the location. More on this will be discussed at next meeting.
- Scott Segal from Poland suggested that we think about adding vendors on the MYCCA website for a fee. This way all teams that may be hosting will have access to vendors that have already worked with other teams. More discussion..
- Sue Hartnett had spoke in regards to a question that was raised about: if a back spot was required on a thigh stand in the shining star division. Per the Sue: “Per the changes, NO

spotter would be required on a back spot as we're now following NFHS guidelines for stunts requiring spotters in this division. It's not listed in the guidelines but it's a lower stunt than what they are allowed to do". Sue will make sure that the safety officials are also aware of this.
